

Izar AC Charger

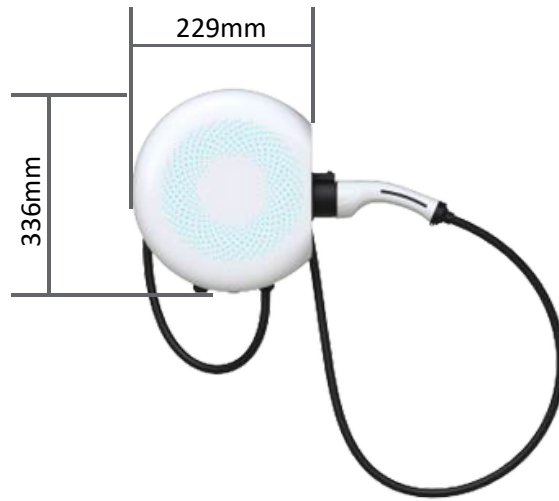

Izar is an intelligent AC charger for residential charging use which features a smaller size design with a maximum output of 7kW. With a user-friendly design, it is convenient to use and easy to install and maintain the charger. Izar also aims to save on energy consumption and costs. It is all about simplicity and convenience to use the Izar AC charger.

Specifications

Izar CE Home Charger		
Rated Power	7kW Socket Version	7kW Cable Version
Application Scenarios	Residential	
Input/Output Voltage	Single-Phase 230V (±10%)	
Input/Output Current	32A	
Weight	3.8KG	
Protection Rating	IP65/IK10	
Dimensions	L336*W299*D120mm	
Frequency	50Hz/60Hz	
Connector	IEC Type2	
Cable Length	5m	
Charging Status Information	LED	
Charging Mode	Plug and Charge/ RFID / App	
Metering	On-board metering (level B, ±1%)	
Installation	Floor-mounted/ Wall-mounted	
Protection Function	Overcurrent protection, overvoltage/undervoltage protection, lightning protection, short circuit protection, ground fault protection (built-in PEN fault device, support UK PEN Fault protection)	
Operation Temperature	-30°C-55°C	
Operation Altitude	<2000m	
Relative Humidity	5%-95%	
RCD	DC 6mA	
EMC	Class B	
Certification	CE/ TUV mark/ RCM/ TR25/ UKCA	
Color	White
